INCIDENT MANAGEMENT APP

- Record the first reports of accidents, injuries, and near-misses using the incident reporting app.
- Accelerates and streamlines the incident reporting procedure.
- Role-based access enables automatic notification to relevant security personnel in case of any incident.
- Automatically send the incident report to security manager and other stakeholders.
- Document every incident happening on your premises and retrieve it whenever needed.

STORE VIDEO FOOTAGE ON AWS CLOUD

For organizers, collecting video footage from security cameras and securely storing it for long-term retention and retrieval, while adhering to regulatory compliance, is vital.

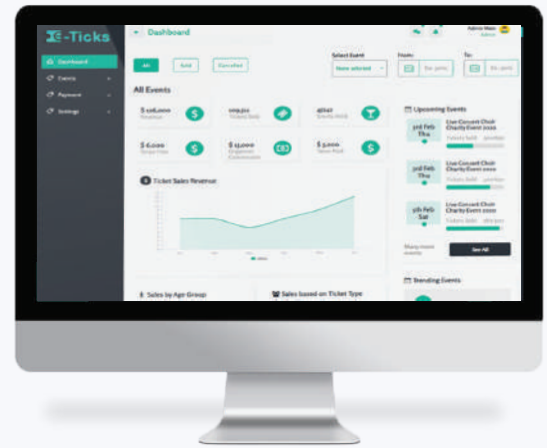

WE ARE EXPERTS IN DEVELOPING A CLOUD SOLUTION TO STORE VIDEO FOOTAGE FOR UP TO 2 YEARS OR MORE

WHY SHOULD YOU STORE VIDEO FOOTAGE ON THE CLOUD?

- Deep archive the footage for economical storage cost.
- Retrieve the video footage as and when needed.
- Avoid the false insurance claims by having video footage of the incident along with a full incident report and digital entry ticket through Eticks.
